All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement. FEATURES

Figure 1 is a legend for map symbols. It is organized into three columns. The first column contains symbols for various types of roads and trails: a solid line for Highway, a dashed line for Secondary Road, a line with cross-ticks for Jeep Trail/Wake/Water/Territory, and a line with cross-ticks and a central bar for Railroad. The second column contains symbols for linear features and boundaries: a line with cross-ticks for Pipe/Power Line, a line with cross-ticks and a central bar for Ridge/Physical Feature, a line with cross-ticks and a central bar for Property/Fence Line, and a dashed line for Nonvisible Boundary. The third column contains symbols for water features and other areas: a blue line for Stream/Shortline, a blue line with cross-ticks for Intermittent Stream, a blue line with cross-ticks and a central bar for River, and a blue line with cross-ticks and a central bar for Glacier. Below these columns are three additional symbols: a blue square with a white border for Military, a grey square with a white border for Inset, and a white square with a grey border for Out Area.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.
